Offered by: Epidemiology and Biostatistics (Faculty of Medicine & Hlth Sci)

Terms offered: Fall 2026

View offerings for Fall 2026 (https://vsb.mcgill.ca/vsb/criteria.jsp?term=202609&courses=PPHS-501) in Visual Schedule Builder.

Description

This course presents concepts and methods of epidemiology at the introductory level. The use of epidemiologic methods for population and public health research and practice will be illustrated. A review of selected population health questions such as the HIV/AIDS epidemic, the cardiovascular disease epidemic, cigarette smoking, or screening for disease will be presented.

- Restriction(s): Not open to students who have taken EPIB 501.
- Course not open to students enrolled in Epidemiology or Public Health programs.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
