Credits: 3

Offered by: Epidemiology and Biostatistics (Faculty of Medicine & Hlth Sci)

Terms offered: Fall 2025

[View offerings for Fall 2025 in Visual Schedule Builder.](#)

Description

This exciting and interactive course aims to give students the opportunity to broaden their understanding and knowledge of global health issues, including global burden of diseases, determinants of health, transition in health and drivers of such transition, challenges in healthcare delivery in resource-limited settings, and the variety of agencies and actors engaged in addressing global health challenges. The course consists of lectures, case studies, debates, discussions and small group work.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
