

PPHS 528. ECONOMIC EVALUATION OF HEALTH PROGRAMS.

Credits: 3

Offered by: Epidemiology and Biostatistics (Faculty of Medicine & Hlth Sci)

Terms offered: Fall 2025

[View offerings for Fall 2025 in Visual Schedule Builder.](#)

Description

Concepts and methods used to carry out economic evaluations of health programs and interventions, including public health interventions, pharmaceuticals, and other health care interventions. Includes topics such as calculation of unit costs, measurement of quality-adjusted life years (QALYs) and assessment of uncertainty in cost-effectiveness analysis.

- Prerequisite: Permission of instructor.
- Restriction(s): Not open to students who have taken EPIB 528.
- No prior background in economics is required.
- Open to graduate students and advanced undergraduates from all departments.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
