

PPHS 618. PROGRAM PLANNING AND EVALUATION IN PUBLIC HEALTH

Credits: 3

Offered by: Epidemiology and Biostatistics (Graduate Studies)

This course is not offered this catalogue year.

Description

Major activities in planning and evaluating an evidence-based public health intervention using a structured approach to intervention planning and different evaluation methodologies and techniques. Emphasis on evidence-based program planning, logic model development, participatory approaches, and program evaluation in applied public health settings.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
