

PSYC 212. PERCEPTION.

Credits: 3

Offered by: Psychology (Faculty of Science)

This course is not offered this catalogue year.

Description

Perception is the organization of sensory input into a representation of the environment. Topics include: survey of sensory coding mechanisms (visual, auditory, tactile, olfactory, gustatory), object recognition, spatial localization, perceptual constancies and higher level influences.

- 2 lectures; 1 conference
- Fall 2 Lectures, 1 conference

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
