

# PSYC 526. ADVANCES IN VISUAL PERCEPTION.

---

Credits: 3

Offered by: Psychology (Faculty of Science)

This course is not offered this catalogue year.

## Description

We examine in detail the structure of the visual system, and its function as reflected in the perceptual abilities and behaviour of the organism. Parallels are also drawn with other sensory systems to demonstrate general principles of sensory coding.

- Winter
- 2 lectures

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
