

PSYT 606. MENTAL ILLNESS: SYMPTOMS DIAGNOSTICS AND DETERMINANTS.

Credits: 3

Offered by: Psychiatry (Graduate Studies)

This course is not offered this catalogue year.

Description

A broad perspective on mental illness, from diagnostic approaches to mental health policies. Examination of symptoms and diagnostic criteria of mood disorders, psychoses, and addictions and impulsivity disorders. Medication- and therapy-based treatments and recent developments in mind-body approaches. Epidemiology and social determinants of mental illness, and mental health prevention, services and policy.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
