

PSYT 682. PSYCHOSOCIAL ISSUES OF DISEASE.

Credits: 3

Offered by: Psychiatry (Graduate Studies)

This course is not offered this catalogue year.

Description

The course objective is to provide students with population-level perspectives on psychosocial aspects of chronic health conditions, highlighting the interactions between mental health, social environment, and physical health. Emphasis will be placed on integrating the following topics: affective symptoms and disorders, community factors, lifestyle behaviours, disability and quality of life, and the onset and course of chronic diseases.

- Prerequisite: Must be registered in an MSc or PhD program.
- Restriction: Permission of instructors.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
