

PSYT 713. PSYCHIATRIC EPIDEMIOLOGY.

Credits: 3

Offered by: Psychiatry (Graduate Studies)

This course is not offered this catalogue year.

Description

An overview of the applications of epidemiology in psychiatry, including instruments and methods used in community studies; major recent population surveys of psychiatric disorders; study of treatment-seeking, pathways to care and use of services; interaction between psychological distress and physical health; methods used in specific populations; evaluation of treatment.

- Prerequisite(s): EPIB 601 or equivalent, or permission of instructor.
- **Due to the intensive nature of this course, the standard add/drop and withdrawal deadlines do not apply. Add/drop is the third lecture day and withdrawal is the sixth lecture day.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
