

RADD 301. TCP RADIOLOGY.

Credits: 1

Offered by: Diagnostic Radiology (Faculty of Medicine & Hlth Sci)

Terms offered: Summer 2025, Winter 2026, Summer 2026

View offerings for Summer 2025 or Winter 2026 or Summer 2026 in Visual Schedule Builder.

Description

This one-week course will introduce students to imaging of the common and important conditions of the chest, abdomen, musculoskeletal and neurological systems as well as pediatric-related pathologies. Through small group session and clinical apprenticeship sessions with technologists, residents and radiologists, students better understand how medical images are acquired in each modality and how they are interpreted by the radiologist.

- Restriction(s): Open only to students in the M.D., C.M. program.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
