

# REDM 405. NATURAL HISTORY OF EAST AFRICA.

---

Credits: 3

Offered by: Redpath Museum (Faculty of Science)

This course is not offered this catalogue year.

## Description

Integrated study of African landforms, geologic history, climate, environments, biota, water resources and human influences, fostering a thorough understanding of the East African landscape and its inhabitants. Lectures, discussions on selected topics, use of museum resources and field studies will develop powers of observation, identification and enquiry.

- Winter
- Corequisites: ANTH/GEOG 451 and NRSC/BIOL 451
- Restrictions: Not open to students who have taken or are taking NRSC 300 or GEOG 300 or NRSC 405. Open only to African Field Study Semester students during the year of participation in the field.
- Course consists of field exercises, lectures, seminars and discussions.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
