

SCSD 616. FOUNDATIONS OF AUDIOLOGY.

Credits: 3

Offered by: Commun Sciences & Disorders (Graduate Studies)

Terms offered: Summer 2025

[View offerings for Summer 2025 in Visual Schedule Builder.](#)

Description

Foundations of clinical audiology including acoustics as it relates to audition and hearing loss; the anatomy and physiology of the auditory system, demographics and prevalence of hearing loss; common diagnostic goals and procedures of clinical audiology and standard avenues of intervention. Concepts of proper administration, interpretation, and application of information obtained in a basic audiologic evaluation emphasizing the role of the speech language pathologist in hearing loss prevention.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
