

# SOCI 588. BIOSOCIOLOGY/ BIODEMOGRAPHY.

---

Credits: 3

Offered by: Sociology (Faculty of Arts)

This course is not offered this catalogue year.

## Description

This course will explore linkages between social and biological systems, their influence on health and well-being over the life course, and on health disparities. Topics include classical sociological approaches to biosocial processes, sociobiology (reductionist, but population-based), and newer demographic studies on gen-environment, epigenetic, and stress-metabolic/allostatic processes.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
