

# SOIL 300. GEOSYSTEMS.

---

Credits: 3

Offered by: Natural Resource Sciences (Faculty of Agric Environ Sci)

This course is not offered this catalogue year.

## Description

Interactions between Earth's various geologic systems and how these interactions lead to mineral and rock formation. Geomorphic processes and how various landforms are created by the interactions at the Earth's surface between the various geologic systems.

- Restriction: Not open to students who have taken SOIL 200
- Winter
- Restrictions: Not open to students who have taken SOIL 200. Restricted to U2 students and above.

Most students use Visual Schedule Builder (VSB) to organize their schedules. VSB helps you plan class schedules, travel time, and more.
