

SWRK 344. INTEGRATIVE SEMINAR 1.

Credits: 3

Offered by: Social Work (Faculty of Arts)

This course is not offered this catalogue year.

Description

Building on SWRK 222 Introduction to Practicum, the purpose of this integrative seminar is to facilitate links between theories, concepts and empirical findings introduced in coursework to observations and knowledge students garner from the field. This process will help students integrate their knowledge from the classroom and their experiences from the field into a useful and meaningful whole. In order to support the integration of theory, research and practice this seminar will also introduce students to principles and practices in field education that support student learning. In this way, students learn how they can maximize their field learning experiences.
