

# COUNSELLING PSYCHOLOGY (NON-THESIS) (M.A.): PROJECT (60 CREDITS)

**Offered by:** Educational & Counselling Psych (Faculty of Education)

**Degree:** Master of Arts

**Program credit weight:** 60

## Program Description

This program is designed to produce graduates with introductory academic preparation for research or clinical careers in counselling psychology. Training is provided in the research domain through coursework in data analysis and a research project. Clinical preparation is initiated in the program through coursework in ethics, intervention, assessment, psychological testing, and multicultural issues and through a practicum. Most coursework is taken during the student's first year of studies while beginning work on their research projects. In their second year, students gain practical experience via a practicum in the Department's Psychoeducational and Counselling Clinic while also completing the majority of their work on the research project. The degree alone **does not** fulfil the requirements for membership in the Ordre des psychologues du Québec (OPQ).

**Note:** For information about Fall 2025 and Winter 2026 course offerings, please check back on May 8, 2025. Until then, the "Terms offered" field will appear blank for most courses while the class schedule is being finalized.

## Required Courses (57 credits)
