

INTERNSHIP OPPORTUNITIES

that aims at solving problems faced by developing populations. Each internship placement must be approved by the instructor.

Internships allow students to gain practical, hands-on experience and develop skill sets that are frequently in high demand by employers. Internships involve a work placement where you are exposed to the main areas of operation of your employer. Each work placement is unique, and you benefit from a program developed exclusively for you by your employer and your instructor.

FAES 200 Internship 1. / FAES 300 Internship 2. Internship Program

As a full-time undergraduate student (with a CGPA of 2.7 or higher) in the Faculty of Agricultural and Environmental Sciences, you have the opportunity to participate in the Internship program.

The internship should be a minimum length of 10 weeks, with the student working 35 hours a week or more. **FAES 200 Internship 1.** is a non-credit (pass or fail) course. **FAES 300 Internship 2.** is a 3-credit course, and you will receive a final grade on your transcript. The internship should be related to your field of study.

AGRI 310 Internship in Agriculture/Environment.

The objective of AGRI 310 Internship in Agriculture/Environment. is to give you experience working in an enterprise that is related to your field of study, and to find out how your studies can contribute to your understanding and performance in the workplace environment. The internship should be a minimum length of 12 weeks. Through observations of the enterprise's functioning, the decision-making process, and the economic constraints, you should obtain a better understanding of the technical, economic, and social challenges faced by enterprises in your field of study. AGRI 310 Internship in Agriculture/Environment. is a 3-credit course.
