

FIELD CROPS AND HORTICULTURE (B.SC. (AG.ENV.SC.)) (18 CREDITS)

Offered by: Plant Science (Faculty of Agricultural and Environmental Sciences)

Degree: Bachelor of Science (Agricultural and Environmental Sciences)

Program credit weight: 18

Program Description

The Specialization in Field Crops and Horticulture focuses on the biology and physiology, breeding, propagation, and management of domesticated crops and vegetables. This Specialization may be taken under the Major in Sustainable Agricultural Systems, and offers the opportunity to take dedicated agronomic content leading to an additional Specialization in Professional Agrology, thereby meeting the eligibility requirements for the Ordre des agronomes du Québec.

Required Courses (18 credits)
