

COMMERCIAL CANNABIS (DIP.) (30 CREDITS)

Offered by: Plant Science (Faculty of Agricultural and Environmental Sciences)

Program credit weight: 30

Program Description

The Diploma in Commercial Cannabis focuses on ethical, medical, and legal issues related to the commercial cannabis industry, cannabis medicinal chemistry, contaminants and product development, as well as theoretical and hands-on experience of production, breeding and disease management. The program includes an internship that involves solving a specific problem that the commercial cannabis industry is facing. The program will extend over 12 months.

Note: For information about Fall 2025 and Winter 2026 course offerings, please check back on May 8, 2025. Until then, the "Terms offered" field will appear blank for most courses while the class schedule is being finalized.
