

# AGRICULTURAL PRODUCTION MINOR (B.SC.(AG.ENV.SC.)) (24 CREDITS)

**Offered by:** Plant Science (Faculty of Agricultural and Environmental Sciences)

**Degree:** Bachelor of Science (Agricultural and Environmental Sciences)

**Program credit weight:** 24

## Program Description

This Minor program is designed to allow students in non-agricultural production majors to receive credit for courses in agricultural production and to stimulate "cross-over" studies. The Minor can be associated with existing major programs in the Faculty, but in some instances it may require more than 90 credits to meet the requirements of both the Major and the Minor.

Students are advised to consult their major program adviser and the Academic Adviser of the Minor in their first year. At the time of registration for their penultimate year, students must declare their intent to obtain a Minor Agricultural Production. With the agreement of their major program adviser, they must submit their program of courses already taken, and to be taken in their final year, to the Academic Adviser of the Agricultural Production Minor. The Academic Adviser of the Agricultural Production Minor will then certify which courses the student will apply toward the Minor and that the student's program conforms with the requirements of the Minor.

Notes:

1. Most courses listed at the 300 level and higher have prerequisites. Although instructors may waive prerequisite(s) in some cases, students are urged to prepare their program of study well before their final year.
2. Not all courses are offered every year. For information on available courses, consult Class Schedule at <http://www.mcgill.ca/minerva>. Complete listings can be found in the "Courses" section of this Course Catalogue.

For information on academic advising, see: <http://www.mcgill.ca/macdonald/studentinfo/advising>

## General Regulations

To obtain a Minor in Agricultural Production, students must:

1. ensure that their academic record at the University includes a C grade or higher in the courses as specified in the course requirements given below.
2. offer a minimum total of 24 credits from the courses as given below, of which not more than 6 credits may be counted for both the Major and the Minor programs. This restriction does not apply to elective courses in the Major program.

**Note:** For information about Fall 2025 and Winter 2026 course offerings, please refer to Visual Schedule Builder. A technical issue is

causing the "Terms offered" field to incorrectly report "this course is not currently offered" for many courses in the Course Catalogue.

## Required Courses (12 credits)
