

ENVIRONMENTAL ENGINEERING MINOR (B.ENG.)

Note: For information about Fall 2025 and Winter 2026 course offerings, please check back on May 8, 2025. Until then, the "Terms offered" field will appear blank for most courses while the class schedule is being finalized.

The Minor program consists of 21 credits in courses that are environment related. This requires the careful selection of complementary courses to permit Bioresource Engineering students to obtain this Minor with a minimum of 12 additional credits.

The Environmental Engineering Minor is administered by the Faculty of Engineering, Department of Civil Engineering (see the program page, Environmental Engineering Minor (B.Eng.) (21 credits), for more information).

Courses Available in the Faculty of Agricultural and Environmental Sciences (Partial Listing)
