

STUDENT ACTIVITIES

The campus offers a wide variety of extracurricular activities for students. All are encouraged to participate. Many of these are organized within the Faculty under the auspices of the Engineering Undergraduate Society (EUS). EUS publishes a handbook describing their operations and the activities of various Faculty clubs and societies; you can also find these on their website (see below). All undergraduate students automatically become members of the EUS. Each department and school also have a student association.

- For more information about EUS and links to department/school student association websites, visit the EUS website.
- Information on extra-curricular activities and organizations can be found on the Faculty of Engineering Student Life site.
- The Faculty of Engineering also has a number of student design teams and projects.
