

JOINT HONOURS COMPONENT ENVIRONMENT

This program is only available to B.A. students in the Faculty of Arts.

The Joint Honours Component Environment offers students the opportunity to undertake a year-long, interdisciplinary research project in their final year under the close supervision of a professor. Joint Honours research provides excellent preparation for graduate studies, but is not required for such studies. If, for some reason, students cannot complete the Joint Honours requirements, they may still graduate with a Minor Concentration Environment.

Available Programs

- Environment Joint Honours Component (B.A.) (36 credits)
