

# ENTREPRENEURSHIP FOR SCIENCE STUDENTS

---

## About Entrepreneurship for Science Students

This Minor is geared toward Science students with an interest in entrepreneurship and key business topics. The set of six courses will introduce them to concepts and skills needed to effectively complement the technical expertise obtained. These concepts and skills form the basis of successful companies in the high technology sector, be they start-ups, or small- or medium-sized enterprises.

## Available Programs

- Entrepreneurship for Science Students Minor (B.Sc.) (18 credits)
