

UNDERGRADUATE STUDENT RESEARCH AWARDS

The following award programs fund undergraduate student research projects at McGill (and sometimes off-campus), usually in the summer.

Please also consult the Faculty of Science's Undergraduate Research section for any new programs that may have been added.

Tri-Agency Undergraduate Student Research Awards: NSERC USRA, SSHRC USRA, CIHR USRA

The **Undergraduate Student Research Awards (USRA)** program is meant to nurture your interest and potential for a research career, and to encourage you to undertake graduate studies. It is an opportunity to gain research experience in an academic setting, while receiving financial support. Recipients engage in a research and development activity, under the supervision of a professor. The Undergraduate Student Research Awards (USRA) program is funded jointly by Canada's three national research granting agencies: the Natural Sciences and Engineering Research Council of Canada (NSERC), the Canadian Institutes of Health Research (CIHR), and the Social Sciences and Humanities Research Council of Canada (SSHRC). This program is also offered at other universities across Canada. To apply, you must be a Canadian citizen, a permanent resident of Canada, or a protected person.

Please refer to the Undergraduate Student Research Awards (USRA) page for more information.

SURA: Science Undergraduate Research Awards

Science Undergraduate Research Awards (SURAs) are for both Canadian and international McGill students registered in a science undergraduate program. SURA recipients engage in full-time research and development activity under the supervision of a McGill professor and gain research experience in an exciting academic setting, while receiving financial support. First offered in summer 2007, SURAs are made possible by funding from generous donors, participating research supervisors, and the Faculty of Science. SURAs are similar to the USRA program; however, international McGill students may also apply.

Please refer to the Science Undergraduate Research Awards (SURAs) page for more information.
